Instructions:

First, cut your foil to fit over your image with a little excess on all sides, I used hot pink for the pineapple and teal for the leaves (these were the colors I had on hand) Put aside.

Rub the embossing buddy over your Pink Pirouette paper. Then using the Versamark ink stamp the Pineapple onto the Pink Pirouette paper (I did it at an angle, you can place it how you would like).

Now sprinkle the Heat & Stick Powder over the image (use scrap paper or tray to catch powder) until fully covered.

Using the Heat Tool, heat the powder until wet looking, do not over heat. Now place your foil onto the image, and use the bone folder to help it stick.

Run it through the big shot (platform fully closed, clear plate, extra paper as shim, image with foil, and top clear plate), pull off the foil slowly. If any foil is in places you didn't want it, use a brush to remove any loose pieces and the adhesive remover to remove any small stuck on pieces.

Using a scrap piece of Bermuda Bay paper run the Hello sentiment from the dies through the big shot.

Now it's time to put it all together. Place the Pink Pirouette with the Pineapple onto the Melon Mambo piece of paper, using the snail adhesive

Make a bow with the Bermuda Bay Stitched Ribbon, use the mini glue dots to place it on the neck of the pineapple. Place glue or adhesive onto the Hello sentiment and place on the lower 1/3 of the card.

Place Stampin Dimensionals on to the back of the Melon Mambo piece, and then place onto the Bermuda Bay card base.

Enjoy!

Note: You can put whatever sentiment works for you and of course use whatever colors make you happy.

Stamp a sentiment of your choice inside.
